

AFRY is a European leader in engineering, design, and advisory services, with a global reach. We accelerate the transition towards a sustainable society. We are 17,000 devoted experts in infrastructure, industry, energy and digitalisation, creating sustainable solutions for generations to come.

### **Making Future**

As part of AFRY, AFRY Management Consulting is the leading advisor to the world's energy and bio-based industries. Our dedicated team of over 500 consultants, across 17 offices on 3 continents, provides strategic and operational advice across the value chain, underpinned by deep expertise and market insights.

Our energy sector team helps energy suppliers, banks and financial investors in the transformation of the energy sector. Our work focuses on market analysis, strategy development, operational excellence, digitalisation as well as complex asset and corporate transactions. Our expertise spans all areas of the energy sector, from power plants to renewable energies to grids and innovative customer solutions.

We are looking for an energetic and driven

### **Analyst AFRY Management Consulting – Düsseldorf, Berlin, Hamburg, Munich**

in order to enlarge and strengthen our energy sector team.

### **Your responsibilities**

- develop solutions for strategic and operational issues related to the transformation of the energy sector
- help companies to make the right decisions and to implement them consistently in the corporate strategy as well as in organisations and processes
- contribute to a highly experienced and motivated team of consultants who work on challenging topics at management level across national borders

## **Your profile**

- You have an excellent academic degree with a technical or economic focus
- You have a high affinity for the energy sector or gained your first experience on the subject of energy during your studies
- You have the ability to implement your own potential and business ideas in an innovative and specialized management consultancy
- You have strong communication and analytical skills, entrepreneurial thinking and a high level of enthusiasm for constantly changing challenges
- A confident handling of MS-Office and very good English skills are required

## **Our offer**

From day one, you are involved in the development of analyses and concepts, in direct contact with our customers. Using the principle of 'learn-on-the-job', you benefit directly from the experience of other team members. Together with your team you will develop valuable insights and advice for decision makers.

You will collaborate with an experienced and highly motivated team of consultants and apply proven methodologies, and content that engages with important issues at management level, across national borders.

You will be tempted by flatter hierarchies and the early transfer of responsibilities, with steep learning curves and excellent career opportunities. You will benefit from a competitive salary, a performance related bonus scheme, consultancy-specific training opportunities and individual support from an experienced mentor.

AFRY is committed to creating an inclusive & diverse environment and we are actively looking for qualified candidates irrespective of gender, gender identity, sexual orientation, ethnicity, religion, disability, or age. You will be part of a global and diverse company where our differences are our strengths. Join us to accelerate the transition towards a sustainable society.
