**IMMEDIATE IMPACT.
CONTINUOUS CHALLENGE.**

Anna, Associate

Oliver Wyman offers a constantly changing and challenging work environment where you are given responsibilities from day one with solid support from your senior colleagues. I also believe I have the most exceptional colleagues that are motivated, inspiring, humble and fun – both at work and at all our official and unofficial social events.

Jennifer, Senior Consultant

CHART YOUR COURSE. WE SUPPORT THE JOURNEY.

At Oliver Wyman, there's no **one size fits all**. We hire exceptional people and help them thrive through a built-in support network, flexible career paths, and no artificial barriers to advancement.

Benedikt, Associate

My first experience with Oliver Wyman was a summer internship, during which I got to work with smart and genuinely down-to-earth colleagues from all over the world. From day one I was given a large amount of responsibility, and now, two years later I could never have imagined that I would have experienced and learnt this much. On top of this my desire to work and travel abroad has been met beyond my expectations.

Sean, Senior Consultant

WE HIRE YOU TO BE YOU.

CAREER PATHS – (SENIOR) CONSULTANTS

This isn't a 2-year program

At Oliver Wyman you'll make an impact from the start, and have enhanced experiences earlier in your career. Our focus on undergraduate hiring means we have designed innovative training & development, mentoring, and flexible work programs around you as a future leader, not as a two-year temporary employee.

What do you want to be famous for?

New consultants at Oliver Wyman get greater client and global opportunities and develop unique expertise sooner than their peers at other consulting firms.

CAREER PATHS – INTERNS

Interns get real responsibility here

Internships at Oliver Wyman provide a true taste of life as a consultant and unique preparation for a full-time role. You'll be staffed on projects and treated like full team members with responsibility for a distinct piece of work. Coaching and feedback is provided throughout your time with us.

We consider candidates from the 4th Bachelor's semester on. The DACH region offers internships throughout the year. The length of the internship is eight to sixteen weeks and can be agreed individually.

When I joined Oliver Wyman, I was looking for a role that provided constant challenge and professional development. With the project based work we do at Oliver Wyman, I get new challenges and great variation in each project. Still after more than six years in, I have not done two projects where both topic, city, team and role have been the same. This in combination with a truly supportive firm culture and amazing colleagues makes Oliver Wyman the perfect fit for me.

Sofia, Engagement Manager

CAREER PATHS – DIGITAL DATA AND ANALYTICS

Is about solving strategically relevant consulting problems with leading edge quant and data science approaches

If you are keen to use your analytical skill set and experience as quantitative expert, if you want to keep working quantitatively and solve problems with real impact and business relevance, then our teams will be the right home for you.

What do you want to be famous for?

Quantitative and analytical work with business impact is our heritage and this is what we are known for. The accelerated growth of our quantitative analytics team re-confirms this and we are excited about the opportunities.
